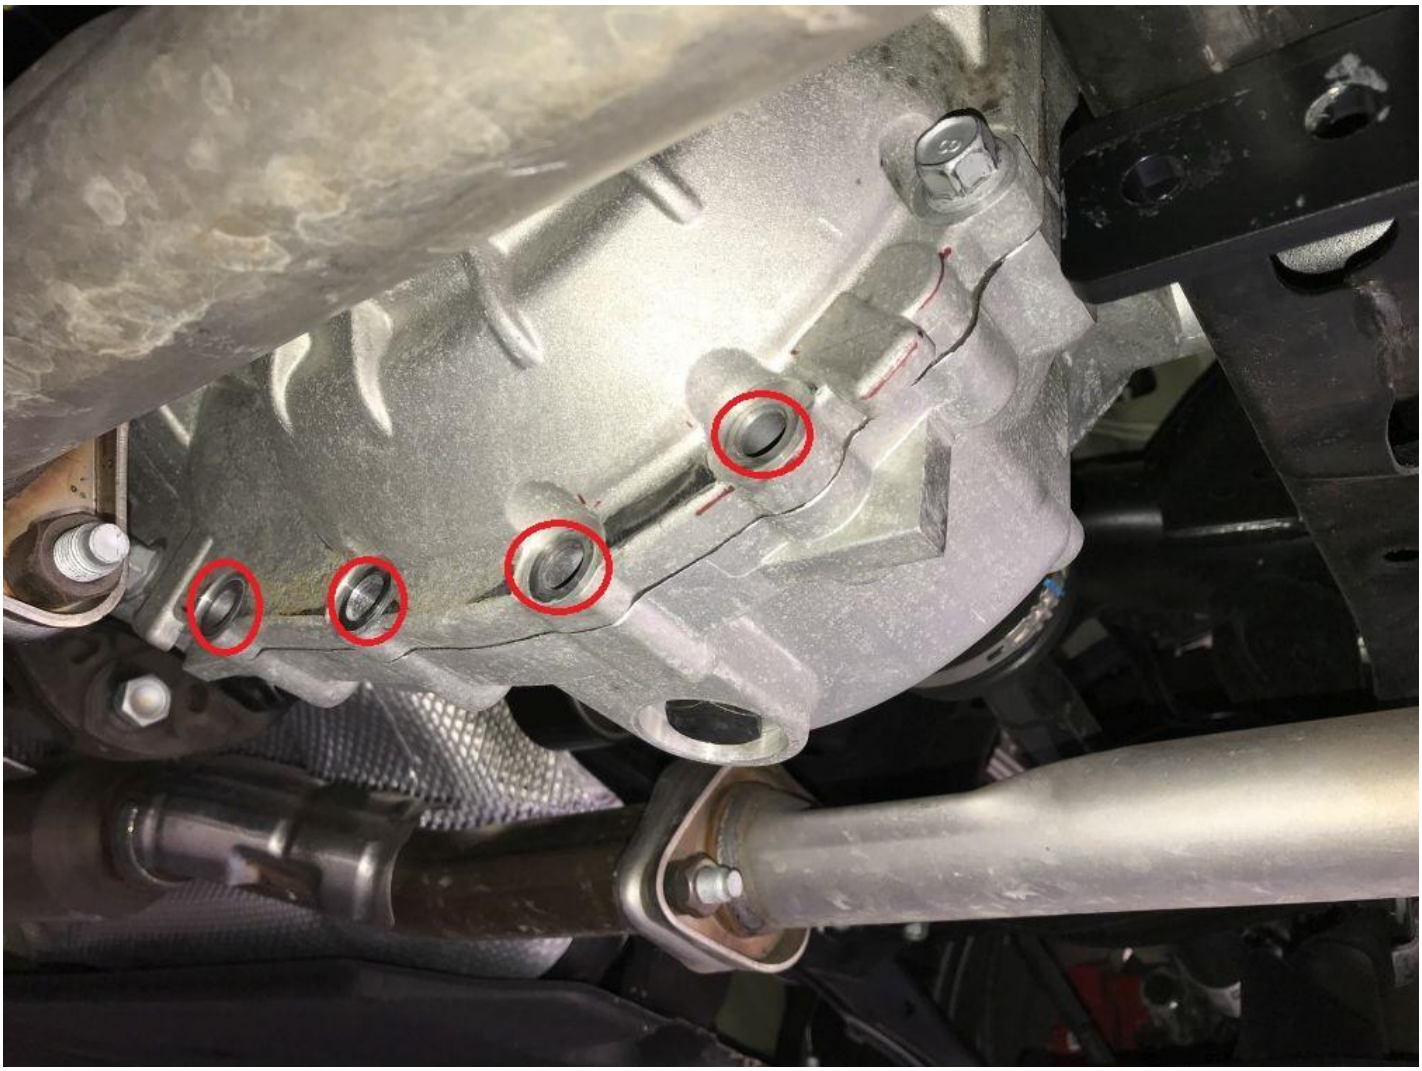
# BMS Differential Brace for 2018+ 3.3L Kia Stinger & Genesis G70

Last updated 4/27/2023

Use subject to terms and conditions posted at https://burgertuning.com/pages/terms

THIS PART IS LEGAL FOR USE ONLY IN COMPETITION RACING VEHICLES AS DEFINED UNDER CALIFORNIA LAW AND IS NOT LEGAL FOR USE IN ANY OTHER MOTOR VEHICLE. California law defines a "racing vehicle" as "a competition vehicle not used on public highways." (Calif. Health & Safety Code 39048) This part may only be used on competition racing vehicles operated exclusively on a closed course in conjunction with a sanctioned racing event. Competition-only motor vehicles may not be driven to a racing event on a public highway and must be transported on a trailer or other carrier. USE OF THIS PART IN ANY OTHER VEHICLE MAY SUBJECT YOU TO FINES AND PENALTIES FOR VIOLATION OF FEDERAL AND/OR STATE LAW, WILL VOID YOUR WARRANTY FROM BURGER MOTORSPORTS, INC, AND CAN VOID YOUR VEHICLE'S WARRANTY. It is your responsibility to comply with all applicable federal and state laws relating to the use of this part, and Burger Motorsports, INC hereby disclaims any liability resulting from the failure to use this part in compliance with all applicable federal and state laws.

Jack up the rear on either jack stands or a lift. Loosen and pull the 4 bottom bolts on the rear differential cover.



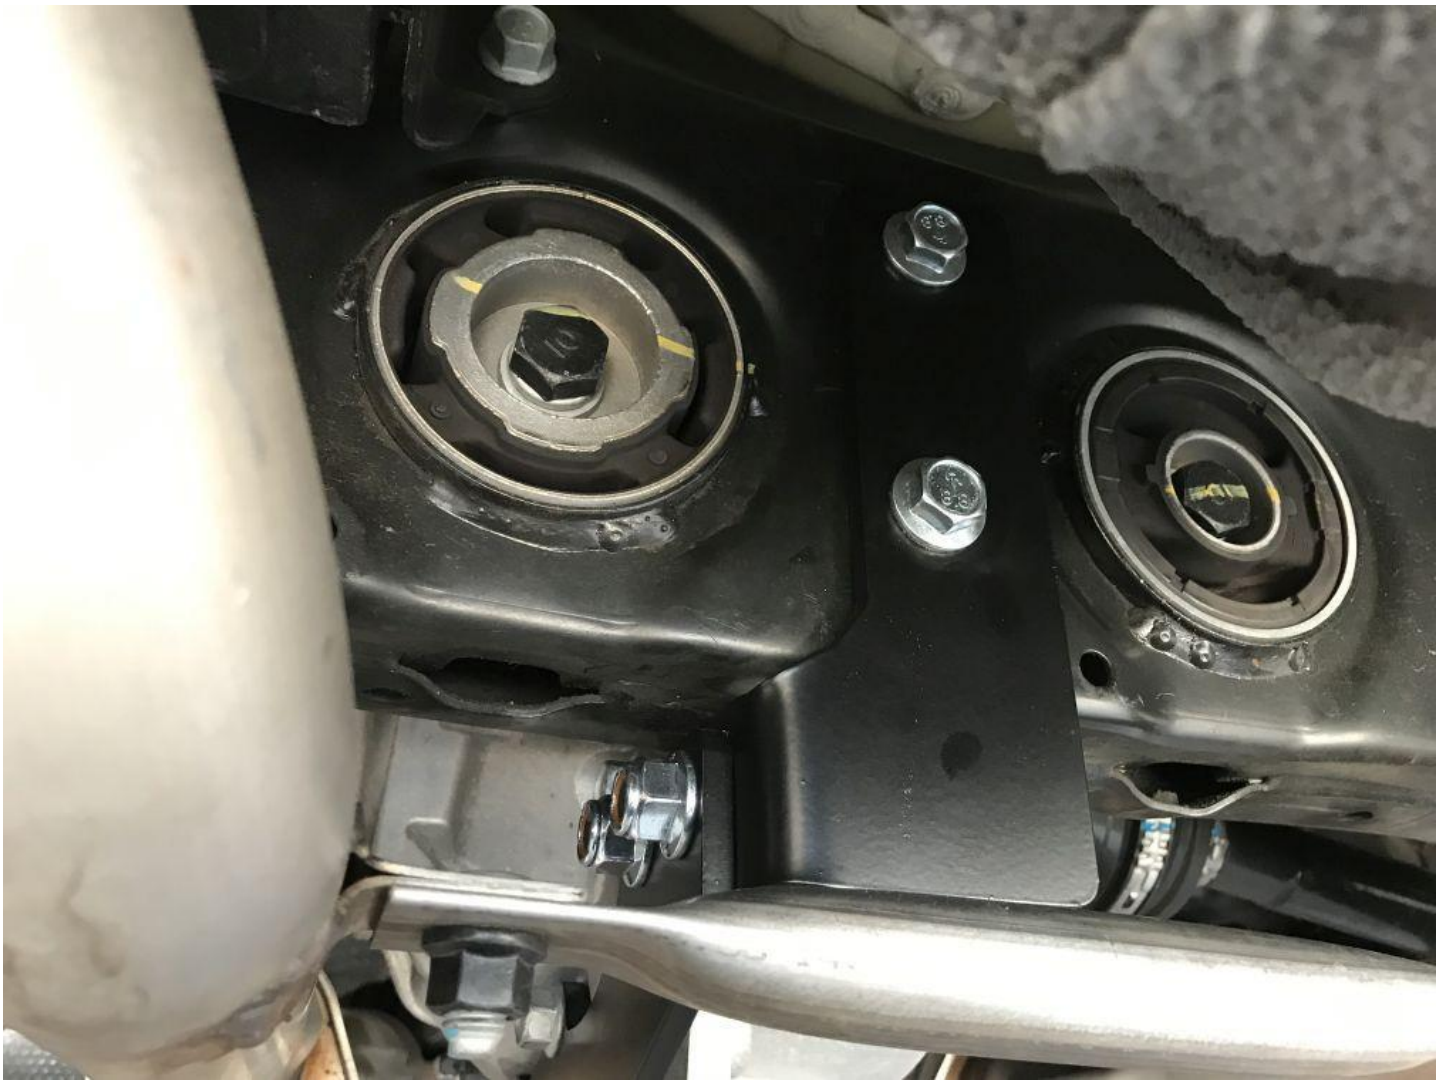
After removing the lower differential bolts, install the BMS differential brace first onto the differential. Use 4 of the longest bolts provided. Don’t tighten anything down just yet until all diff brace pieces are on.

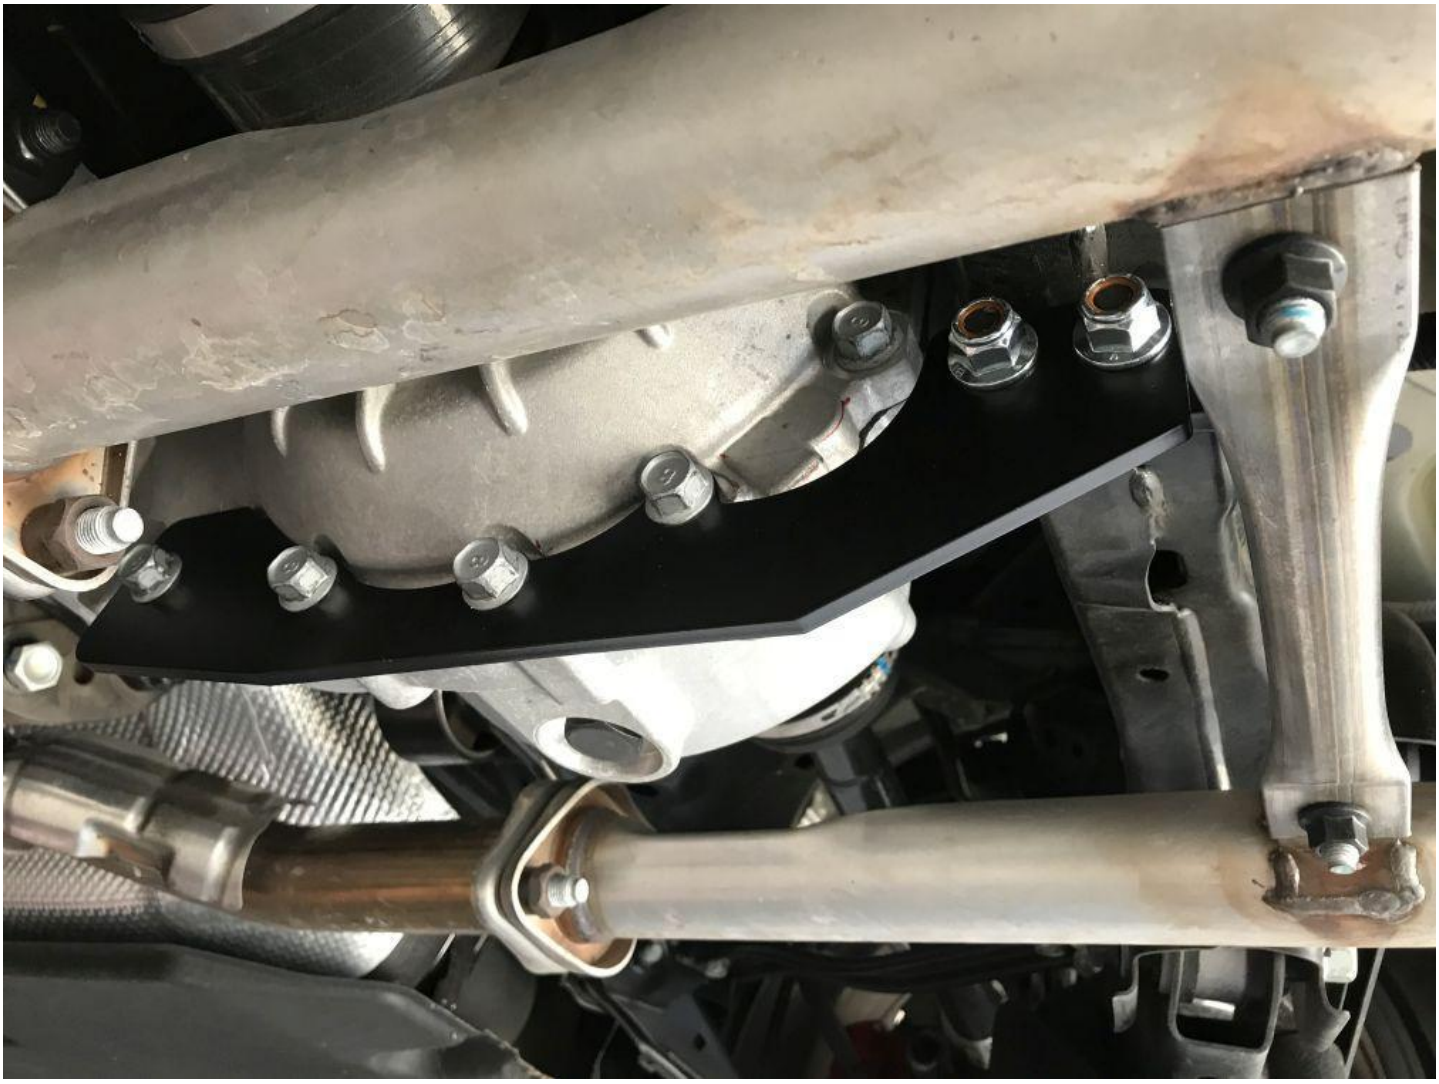
Slide the smaller bracket with the two welded nuts into the rear subframe slot as shown.
The L shaped bracket will be tightened down to this using two of the shortest bolts provided.

KT1NBU108

Attach the large bottom brace to the L shaped bracket using the last two of the medium length provided bolts and lock nuts.

With the diff brace aligned and in place you can start tightening everything.





Installation is complete!
