THIS PART IS LEGAL FOR USE ONLY IN COMPETITION RACING VEHICLES AS DEFINED UNDER CALIFORNIA LAW AND IS NOT LEGAL FOR USE IN ANY OTHER MOTOR VEHICLE. California law defines a "racing vehicle" as "a competition vehicle not used on public highways." (Calif. Health & Safety Code 39048) This part may only be used on competition racing vehicles operated exclusively on a closed course in conjunction with a sanctioned racing event. Competition-only motor vehicles may not be driven to a racing event on a public highway and must be transported on a trailer or other carrier. USE OF THIS PART IN ANY OTHER VEHICLE MAY SUBJECT YOU TO FINES AND PENALTIES FOR VIOLATION OF FEDERAL AND/OR STATE LAW, WILL VOID YOUR WARRANTY FROM BURGER MOTORSPORTS, INC, AND CAN VOID YOUR VEHICLE'S WARRANTY. It is your responsibility to comply with all applicable federal and state laws relating to the use of this part, and Burger Motorsports, INC hereby disclaims any liability resulting from the failure to use this part in compliance with all applicable federal and state laws.

Remove the factory intake cover by removing the 4 torx screws. These will be reused to secure the BMS bronco intake. Pull up on the lid and detach it from the factory inlet.

Remove the restrictive factory filter by pulling up on the left side of it.

Place the BMS inverted cone filter in the airbox by putting it in outlet side first. Then carefully secure it in the lower airbox tab shown below in front of the arrow.

The BMS filter should sit straight up and down in the airbox bottom.

Put the 4 factory torx screws in the BMS intake lid halfway down and place the lid in the vehicle. The tab on the inside of the airbox lid should be secured to the top of the filter holding it in place and attach to the factory air inlet.

Just like that. Better sound and performance. Enjoy.
